DSP: Dry Brushed Metallic Specialty DSP

Inks: Calypso Coral, Lost Lagoon

Other: Brushed Brass Butterflies, Gold Satin Edged Ribbon, Sponge Daubers, Trimmer, Multipurpose Glue, Mini Dimensionals, Cut & Emboss Machine, Bone Folder

Instructions

Card Base: 21cm x 14cm

Take the largest die from the Countryside Corners dies and place it on the left side of the cardstock. On the right side of the die, score a line as shown below (dotted yellow line). Place it in your die cutting machine and place the top acrylic plate on top only to the solid blue line. This will ensure that only the area under the plate will cut. Run through the machine.

You can take your Paper Snips and finish the cutting to the scoreline.

Place this in your Trimmer with the die on top and the blade side facing up. Now you can see where it fits for the next scoreline to be made.

Fold over the left side which was previously cut and holding it tight, cut using your Paper Snips to create the second panel. Remember to cut only to the scoreline.

Now you have two panels. For the third panel, place the die into position and hold it with some washi tape or a post it note.

Place this in your die cutting machine with the acrylic plate on top (to the blue line), leaving space (approx. 1cm) so it won't cut all the way through (as shown below). Same as we did in Step 1.

Now you can trim with your Paper Snips, to meet the scoreline.

Now you can go ahead and decorate as you desire.

I have used the next size down in the Countryside Corners dies, to die cut 4 panels of the Dry Brushed Metallic Specialty Designer Paper. The White centre panel inside is the 3rd largest die. The other 3 white pieces are cut using the Something Fancy die.

The Dainty Delight dies were used to die cut the flowers and leaves, as well as the Grove dies. The sentiment is from the Dainty Delight stamp set.

I hope you have a go at making one of these trifold cards. The possibilities are endless.

Enjoy!
